RE: Release of Annual Listing of Federally Obligated Projects for Federal Fiscal Year 2005-06

Federal Law, under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA), requires the Metropolitan Transportation Commission to publish a listing of projects using federal funds obligated in the previous federal fiscal year. The annual listing provides a record of project delivery for the previous year. The listing is also intended to increase the awareness of government spending on transportation projects to the public.

Since the introduction of SAFETEA and the new regulations that require a more transparent reporting method, MTC developed this report to make the annual obligations listing easier to understand for the general public. The new format of the Annual Listing includes text explaining the different obligation groups, as well as breaking down the listing by categories such as mode, fund source, and Transportation 2030 investment category. Additionally, the Listing includes a long list of commonly used abbreviations and acronyms to help the public better understand the federal obligation process.

SAFETEA also encourages cooperation among the state transportation agency (Caltrans), public transit operators, and MTC to develop this listing. As a part of our development process, MTC brought a working final draft to the Bay Area Partnership Technical Advisory Committee to receive their input on the Listing. The information comes from data compiled by Caltrans and MTC. For the last federal fiscal year (2005-2006), the region obligated approximately \$942 million in federal funds.

The listing has three sublistings: local projects, transit projects, and state managed projects. Information for the local project listing includes obligation of fund sources such as Surface Transportation Program (STP), Congestion Mitigation Air Quality Improvement (CMAQ), and Transportation Enhancement (TE). The source of this information is Caltrans and MTC. The second table for transit includes obligation of fund sources such as Federal Transit Administration sections 5307 and 5309, and comes from MTC. The final listing of state managed highway projects includes obligation of fund sources such as Emergency Relief and Interstate Maintenance, and comes from Caltrans.

The enclosed document is available through the Internet at the MTC home page:

<http://www.mtc.ca.gov/funding/delivery/>

If you have any questions regarding the Annual Listing, please contact Kenneth Kao of MTC's Programming and Allocations Section by phone at (510) 817-5768 or by e-mail at: kkao@mtc.ca.gov.

Thank you for your interest in the Annual Listing of Federally Obligated Projects.

Sincerely,

Therese McMillan
Deputy Executive Director, Policy

Enclosure

Nine-County San Francisco Bay Area Transportation Network

About this Document

Federal Law, under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA), requires the Metropolitan Transportation Commission to publish a listing of projects using federal funds obligated in the previous federal fiscal year. The annual listing provides a record of project delivery for the previous year. The listing is also intended to increase the awareness of government spending on transportation projects to the public.

Obligation of federal funds means that a project has received federal commitment for reimbursement, and does not necessarily mean that the project was initiated or completed in that year or indicate the total cost of that project.

This document is available for download on the MTC website at <http://www.mtc.ca.gov>, under “Funding.”

About the Metropolitan Transportation Commission

Created by the state Legislature in 1970 (California Government Code § 66500 et seq.), the Metropolitan Transportation Commission (MTC) is the transportation planning, coordinating and financing agency for the nine-county San Francisco Bay Area. The Commission’s work is guided by a 19-member policy board.

Over the years, state and federal laws have given MTC an increasingly important role in financing Bay Area transportation improvements. At the federal level, the 1991 Intermodal Surface Transportation Efficiency Act (ISTEA) and its successor, the Transportation Equity Act for the 21st Century, empowered Metropolitan Planning Organizations (MPOs) like MTC to determine the mix of transportation projects best suited to meet their region's needs. Congress reaffirmed MPOs’ role in transportation financing in 2005 with the passage of the SAFETEA.

Regional Transportation Plan: Mobility for the Next Generation

As the agency responsible for transportation planning in the nine-county San Francisco Bay Area, MTC is responsible for adopting the Bay Area’s regional transportation plan. The current plan, known as Transportation 2030, was adopted by the Commission on February 23, 2005. The plan was developed after a three-phase planning process over some 20 months with extensive public involvement.

The plan specifies a detailed set of investments and strategies throughout the region from 2005 through 2030 to maintain, manage and improve the surface transportation network. Updated every four years to reflect new planning priorities and changing projections of growth and travel demand, the long-range plan must be based on a realistic forecast of future revenues. Taken as a whole, the projects included must help improve regional air quality.

For context, the region relies on various fund sources – among them federal funds – to achieve the set of investments in the plan. Over the 25-year period of the plan, federal funds represent approximately 11% of the revenues for Bay Area surface transportation investments. As a reminder, this obligation report is limited to federal funds and does not include all revenues expended on transportation in a given year.

Only projects listed in the Regional Transportation Plan's financially-constrained list may be placed in the Transportation Improvement Program (TIP) for federal funding.

Transportation Improvement Program

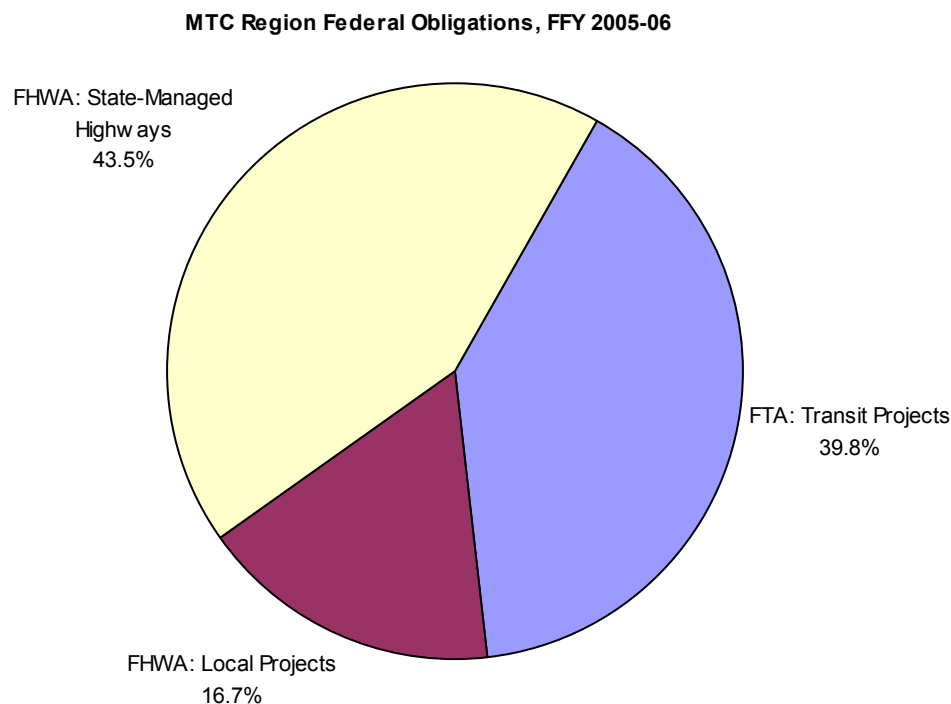

The federally required Transportation Improvement Program, or TIP, is a comprehensive listing of all Bay Area transportation projects that receive federal funds or that are subject to a federally required action, such as a review for impacts on air quality. The TIP sets forth the Metropolitan Transportation Commission's investment priorities for transit and transit-related improvements, highways and roadways, bicycle and pedestrian, and other surface transportation improvements in the nine-county San Francisco Bay Area. MTC prepares and adopts the TIP every two years. By law, the TIP must cover at least a four period and contain a priority list of projects grouped by year. Further, the TIP must be financially constrained by year (meaning that the amount of dollars programmed must not exceed the amount of dollars estimated to be available). Federal regulations also require an opportunity for public comment prior to TIP approval. The 2007 TIP was approved by the Federal Highway Administration on October 2, 2006. Projects obligated in this listing, however, are included in the 2005 TIP.

In order for a project to receive a federal obligation, the project's funds must be listed in the TIP.

Annual Obligated Project Listing Summary

This annual listing shows that approximately \$942 million of federal funds were obligated in FFY 2006 in the MTC region. Of this amount, \$567 million was obligated by the Federal Highway Administration (FHWA) for highway, local road, bicycle and pedestrian facilities, transportation enhancement, and air quality projects. Of this \$567 million, the State of California Department of Transportation (Caltrans) obligated \$410 million for state highway related projects, and local agencies and Caltrans obligated \$157 million for local projects on and off the state highway system. Another \$375 million was obligated by the Federal Transit Administration (FTA) for transit projects. Chart A-1 illustrates the breakdown of obligations by obligating agency.

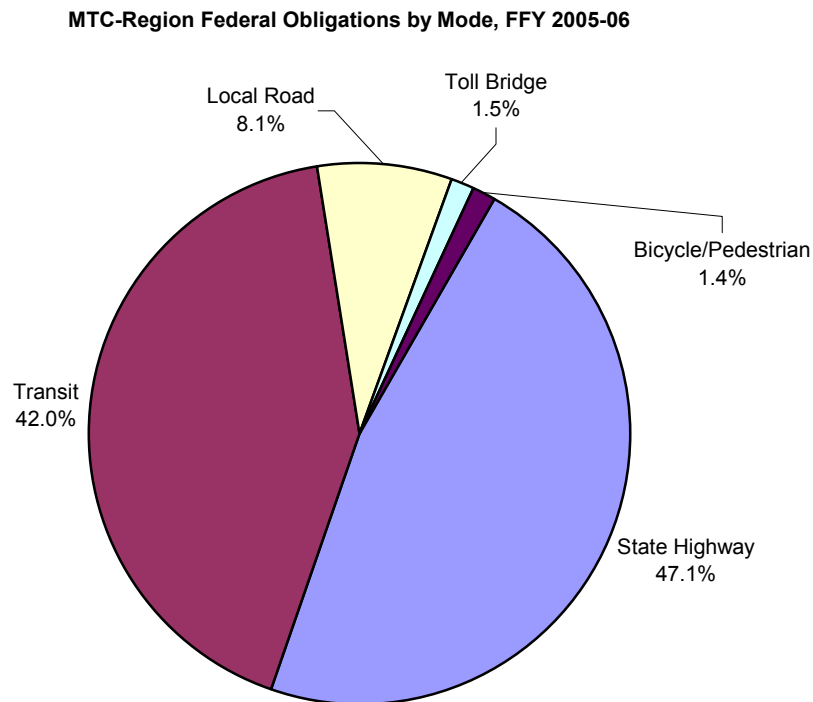

Chart A-1: MTC-Region Federal Obligations

Obligating Agency	Total Obligations	Percent of Total
Federal Highways Administration: State-Managed Highways*	\$410 million	43.5%
Federal Transit Administration: Transit Projects	\$375 million	39.8%
Federal Highways Administration: Local Projects	\$157 million	16.7%
Total	\$942 million	100%

* This amount does not include statewide obligations for which a regional breakdown of funding is not available.

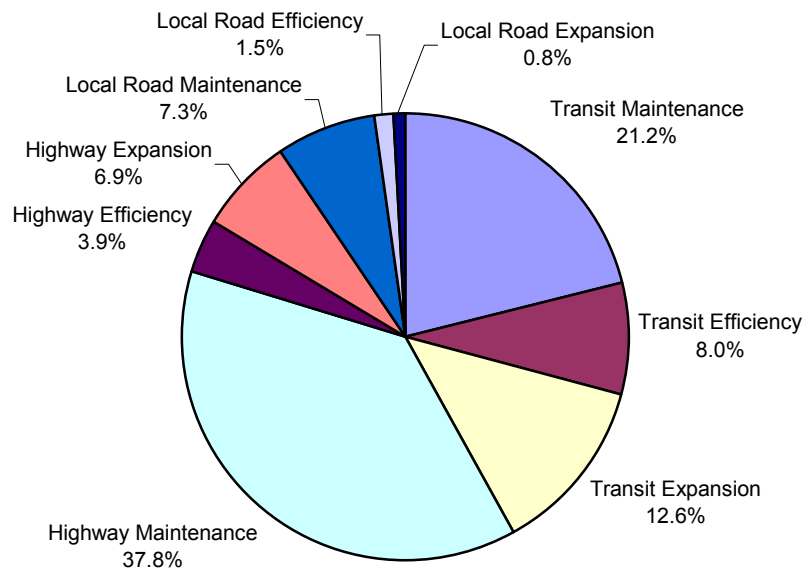

Chart A-2: MTC-Region Federal Obligations by Mode

Mode	Total Obligations	Percent of Total
State Highway	\$444 million	47.1%
Transit	\$395 million	42.0%
Local Road	\$76.6 million	8.1%
Toll Bridge	\$14.0 million	1.5%
Bicycle/Pedestrian	\$12.8 million	1.4%
Total	\$942 million	100%

The chart above shows all federal obligations in the MTC-Region, broken down by mode. The largest mode receiving federal obligations in FFY 2005-06 was state highways, making up 47% of all obligations, or about \$444 million of \$942 million. Transit received the second largest amount of obligations, at 42% or \$395 million of \$942 million obligated. Local road projects received 8%, and toll bridges received 1.5% of all obligations. Bicycle and pedestrian projects received \$12.8 million in federal obligations, or 1.4% of all federal funds obligated.

Chart A-3:

MTC-Region Federal Obligations by T-2030 Investment Type, FFY 2005-06

T-2030 Investment Category/Type	Total Obligations	Percent of Total
Adequate Maintenance	\$625.0 million	66.3%
Highway	\$356 million	37.8%
Transit	\$200 million	21.2%
Local Road	\$69.0 million	7.3%
System Efficiency	\$126.1 million	13.4%
Transit	\$75.8 million	8.0%
Highway	\$36.5 million	3.9%
Local Road	\$13.8 million	1.5%
Strategic Expansion	\$191.4 million	20.3%
Transit	\$119 million	12.6%
Highway	\$65.1 million	6.9%
Local Road	\$7.3 million	0.8%
Total	\$942 million	100%

The chart above illustrates all obligations in the MTC-Region, broken down by Transportation 2030 investment categories or types. The spending recommendations proposed by the Transportation 2030 Plan are focused on maintaining and operating the existing transportation system efficiently and making strategic investments to keep pace with the Bay Area's projected growth over the next 25 years. The Plan shows about 80% will go toward the ongoing maintenance and rehabilitation of the region's transportation infrastructure, 4% to operate and manage the system more efficiently, and 16% to expand our highways, transit, and local roads. Of course, the Plan shows funding from all sources in the region, not just federal funding.

In FFY 2005-06, highway maintenance received the largest amount of federal obligations, making up 38% of all obligations, or about \$356 million. This includes interstate maintenance and emergency relief projects. Transit maintenance obligated the second highest amount of federal funds, with 21% or \$200 million. This category includes bus and facility rehabilitation. Transit expansion obligated the third highest amount of federal funds, with 12% or \$119 million of federal funds. This includes bus purchases and facility expansion.

Bicycle and pedestrian projects are categorized under local road.

The Regional Transportation Plan, referred to as Transportation 2030, can be found at the MTC website at http://www.mtc.ca.gov/planning/2030_plan/index.htm.

Annual Obligated Projects Listing Explanation

There are three tables included in the listing:

- Table 1: FHWA Local Projects obligated, sorted by county and implementing agency. This list includes projects from fund sources such as surface transportation program (STP), Congestion Mitigation Air Quality Improvement (CMAQ), transportation enhancements (TE), and federal high-priority earmarks. Funds transferred to FTA are marked with a “+” after the fund source.
- Table 2: Federal Transit Administration Transit obligations, sorted by transit property. This list includes all funds obligated directly through FTA.
- Table 3: State-Managed Highway obligations, sorted by county. This list includes all funds obligated by the California Department of Transportation (Caltrans) for work on the state highway system, and includes fund sources such as emergency relief (ER), Interstate Maintenance (IM), and national highway system funds.

For tables 1 and 2, the columns in the listing include:

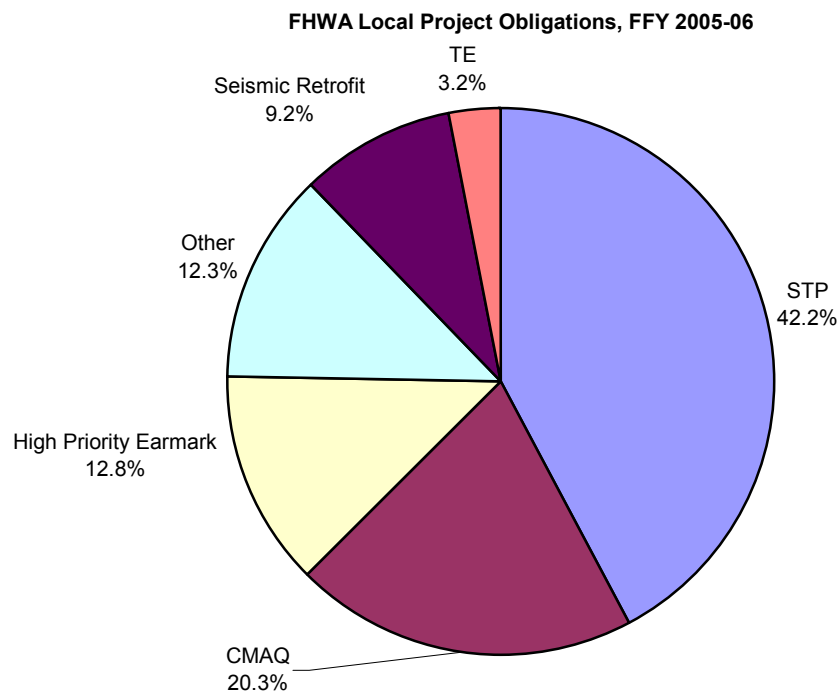

- TIP ID, the identification code for the project in MTC’s TIP
- Project Title and Description
- Fund Source, indicating the obligated fund source
- Federal Project ID, indicating the federal project identification code (for FTA obligations, this is the grant number)
- Total Obligation Amount. Negative numbers indicate a deobligation, where the federal funding commitment is no longer needed for the project
- Obligation Date, indicating the date FHWA (or FTA) obligated the funds
- Remaining Obligation Amount (by TIP ID), the amount programmed in the next four years of the TIP (FY 07 through FY 11). Please note that if there are multiple obligations for each TIP ID, the remaining obligation amount will also be displayed multiple times.

Table 3 does not include the TIP ID, obligation date, or remaining obligation amount. The California Department of Transportation may have additional information regarding the obligations they manage. Many of the funds Caltrans obligates for the State Highway System are programmed in the TIP and obligated at the beginning of the year as a lump sum.

Obligated Project Table Charts

The attached tables show all projects obligated in FY 2005-06. The charts below illustrate the breakdown of fund source by each of the tables mentioned above, except for Table 3.

Chart B-1: FHWA Local Project Obligations

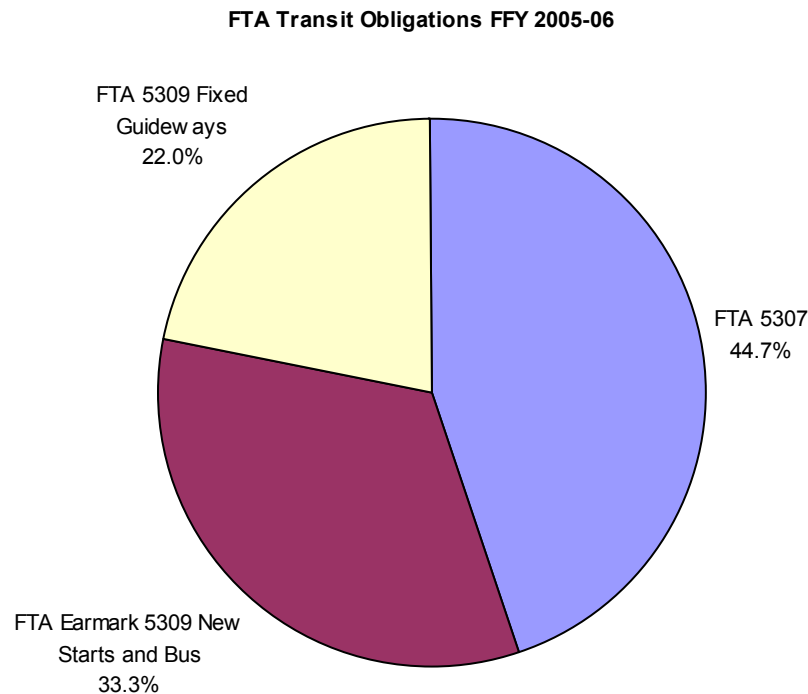

Fund Source	Total Obligations	Percent of Total
Surface Transportation Program	\$66.5 million	42.2%
Congestion Mitigation Air Quality Improvement*	\$32.0 million	20.3%
High Priority Earmark	\$20.2 million	12.8%
Other (HES, SRTS, Highway Bridge, etc.)	\$19.4 million	12.3%
Seismic Retrofit	\$14.5 million	9.2%
Transportation Enhancements*	\$5.0 million	3.2%
Total	\$157.6 million	100%

* Of these amounts, \$27.5 million of CMAQ and \$0.5 million of TE were transferred to FTA.

The above chart shows that the majority of funding obligated was Surface Transportation Program (STP) funds, with total obligations of about \$66.5 million, or 42% of local project funds obligated. STP funds are mainly used for roadway and transit rehabilitation needs. Congestion Mitigation Air Quality Improvement (CMAQ) projects obligated about 20% or \$32 million. The region used CMAQ funds for the successful Bay Area Spare the Air Days, allowing free transit on air quality exceedence days, as well as a number of bicycle and pedestrian improvement projects. Transportation Enhancement (TE) projects, including streetscape beautification and bicycle and pedestrian projects, made up 3% or \$5 million, while High Priority earmark obligations made up 13% or \$20.2 million of obligated funds. Funds transferred to the Federal Transit Administration for obligation totaled about \$28.0 million, or 18% of funds obligated. The

region obligated \$14.5 million in Seismic Retrofit funds for bridge safety, accounting for 9% of funds obligated. The remaining obligations came from lump sum obligations, including the Hazard Elimination/Safety (HES), Safe Routes to School (SRTS), and Highway Bridge Programs. These programs account for the remaining 13% or \$19.4 million of obligations.

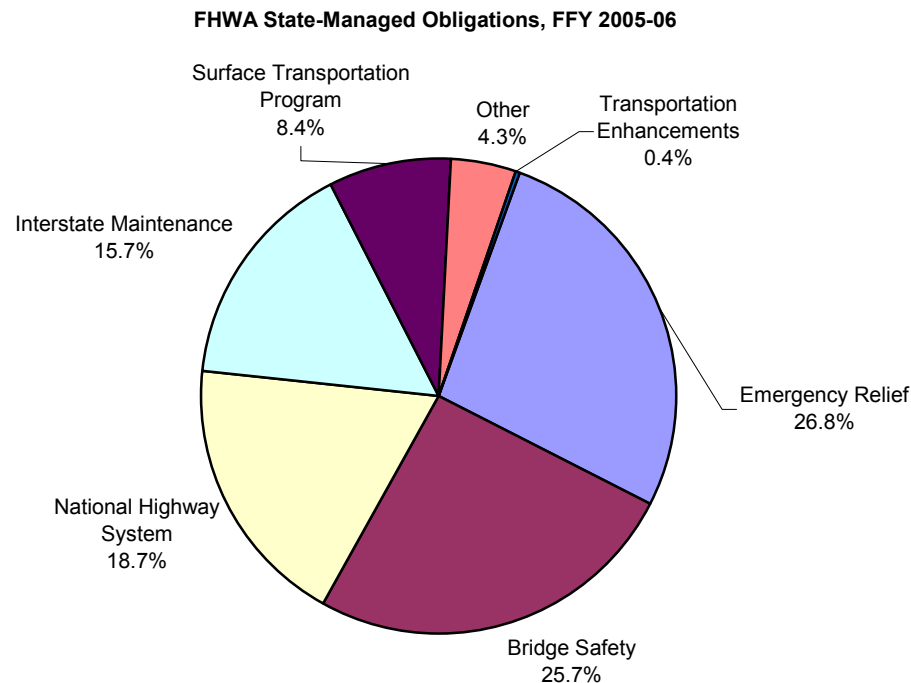

Chart B-2: FTA Transit Obligations

Fund Source	Total Obligations	Percent of Total
FTA 5307	\$167.8 million	44.7%
FTA Earmark 5309	\$124.8 million	33.3%
FTA 5309	\$82.6 million	22.0%
Total	\$375.2 million	100%

The above chart shows the breakdown of Federal Transit Administration obligations in FY 2005-06. The majority of obligations were for FTA section 5307 funds, with \$167.8 million in obligations accounting for 45% of funds obligated by FTA. Section 5307 funds can be used for a variety of purposes, including bus purchases, preventative maintenance, and facility improvements. FTA section 5309 fixed guideways account for 22% of FTA-obligated funds, or about \$82.6 million. Section 5309 fixed guideways funds can only be used for supporting transit using fixed guideways, such as rail and ferry services. FTA section 5309 earmark funds make up 33% of FTA-obligated funds, or \$124.8 million. Section 5309 earmark funds includes new start funding for significant capital projects, and bus funding for bus facilities and bus purchases.

Chart B-3: FHWA State-Managed Obligations

Fund Source	Total Obligations	Percent of Total
Emergency Relief	\$110 million	26.8%
Bridge Safety	\$105 million	25.7%
National Highway System	\$76.5 million	18.7%
Interstate Maintenance	\$64.4 million	15.7%
Surface Transportation Program	\$34.4 million	8.4%
Other	\$17.7 million	4.3%
Transportation Enhancements	\$1.6 million	0.4%
Total	\$409.6 million	100%

The above chart shows the obligations the State of California received from FHWA in FFY 2005-06 for the region and for certain significant statewide programs. The largest fund source obligated to the State was Emergency Relief funds, with \$110 million of 27% of total state-managed obligations. ER funds are used to repair roads after a disaster or weather incident. Bridge Safety funds, used to repair and replace bridges, obligated \$105 million or 26% of total state-managed obligations. National Highway System funds, used for improvements to roads on the National Highway System, obligated \$76.5 million. The next largest fund source obligated was Interstate Maintenance, with \$64 million or 16% of total state-managed obligations. These funds are used to maintain the Interstate Highway System in the region. Surface Transportation Program obligated \$34.4 million, and the Transportation Enhancement fund source obligated a total of \$1.6 million. The “Other” category includes research and safety grants, minimum guarantee funds, and other studies, and obligated \$18 million or 4% of state-managed obligations.

Annual Obligation Listing Highlights

Below are the projects with the highest obligation amount in FY 2005-06 for each of the three attached tables.

Table 1: FHWA Local Project Obligations, Top 10 Obligations Overall

Agency	Project	Obligated Amount
BART	BART Prev. Maintenance Program (BART Car Replacement Program)	\$22,680,000.00
Various	Various: Lump Sum Local - Seismic Retrofit	\$14,496,934.67
GGBHTD	South approach to Golden Gate Bridge (Phase II - Retrofit): Seismic retrofit of Golden Gate Bridge	\$11,734,583.00
MTC	511 Traveler Information - FY 06-07	\$8,800,000.00
Northwestern Pacific Railroad Authority	NWPRR-R/W - Larkspur to Korbel and Novato to Lombard: Acquire R/W	\$8,387,234.20
Caltrans	SR-152: Truck Passing Lane	\$5,073,227.52
Various	Various: Lump Sum Local - Highway Bridge Program	\$4,833,613.13
San Jose	City of San Jose Rehab of Various Streets	\$4,623,000.00
MTC	Spare the Air - Free Transit - FY 05-06	\$4,500,000.00
Sonoma County	Sonoma County - Rehab on Various Streets	\$4,389,000.00

Table 2: Federal Transit Administration Obligated Projects, Top 5 Obligations

Operator	Project	Obligated Amount
BART	San Francisco Airport Extension	\$80,230,986.00
VTA	Preventive Maintenance	\$29,722,389.00
SF Muni	3rd St. LRT: Ph 2 - New Central Subway	\$24,502,500.00
SF Muni	Preventive Maintenance	\$16,991,486.00
GGBHTD	Replace (40) 1994 40' Flexible buses	\$14,917,775.00

Table 3: FHWA State-Managed Highway Obligations, Top 5 Obligations

County	Project	Obligated Amount
San Mateo	San Mateo Co. near Pacifica on Rte 1 south of Linda Mar Blvd, Construct Tunnels, Approach Roads	\$118,754,631.42
Alameda	San Francisco - Oakland Bay Bridge, Replace SFOBB East Span	\$100,000,000.00
Santa Clara	Santa Clara Co. - Guadalupe River Bridge to Santa Clara/San Mateo County Line, Grind PCC Pavement/Retrofit PCC Slab	\$14,948,684.00
Santa Clara	San Jose on Rte 87 from Rte 280 to Rte 85/87 interchange, HOV Widening, Construct Collector	\$10,578,887.00
San Mateo	Pacifica Rte 1 south of Linda Mar Boulevard, Construct Retaining Wall/Embankment	\$9,209,194.00

Listing of Commonly Used Abbreviations

Below is a listing of commonly-used abbreviations in this document and their meanings.

Abbreviation	Meaning
AC	Asphalt Concrete
AC Transit	Alameda-Contra Costa Transit District
ACCMA	Alameda County Congestion Management Agency
ADA	Americans with Disabilities Act
BAAQMD	Bay Area Air Quality Management District
BART	Bay Area Rapid Transit District
BR	Bridge
BRT	Bus Rapid Transit
Caltrain/JPB	Caltrain / Peninsula Joint Powers Board
Caltrans	California Department of Transportation
CC	Contra Costa
CCAG	[San Mateo] Cities/County Associated Governments
CCCTA	Central Contra Costa Transit Authority
CCTA	Contra Costa Transportation Authority
CCTV	Closed-Circuit Television
CHP	California Highway Patrol
CMA	Congestion Management Agency
CMAQ	Congestion Mitigation Air Quality Improvement
CO	County
CON	Construction
DPW	Department of Public Works
E/B	Eastbound
E/O	East of
ECCTA	Eastern Contra Costa Transit Authority
ENV	Environmental
ER	Emergency Relief (or Response)
FFY	Federal Fiscal Year
FHWA	Federal Highway Administration
FTA	Federal Transit Administration
FTA 5307	Federal Transit Administration section 5307
FTA 5309 FG	Federal Transit Administration section 5309 – Fixed Guideways
FTA Ear 5309 Bus	Federal Transit Administration section 5309 Earmark – Bus
FTA Ear 5309 NS	Federal Transit Administration section 5309 Earmark – New Starts
FY	Fiscal Year
GGBHTD	Golden Gate Bridge, Highway, and Transportation District
HES	Hazard Elimination/Safety
HOT	High Occupancy – Toll
HOV	High Occupancy Vehicle
I/C	Interchange
I/S	Intersection
IM	Interstate Maintenance
ITS	Intelligent Transportation Systems
LAVTA	Livermore Amador Valley Transit Authority

MPO	Metropolitan Planning Organization
MTC	Metropolitan Transportation Commission
MUNI	San Francisco Municipal Railway
N/B	Northbound
N/O	North of
NCTPA	Napa County Transportation Planning Agency
NWPRR	Northwestern Pacific Railroad
OA	Obligation Authority
OC, O/C	Overcrossing
PCC	Portland Cement Concrete
PE	Preliminary Engineering
PM	Postmile
PS&E	Plans, Specifications, and Estimates
PTAP	Pavement Technical Assistance Program
ROW, R/W, RW	Right of Way
RTP	Regional Transportation Plan
RTPA	Regional Transportation Planning Agency
S/B	Southbound
S/O	South of
SAFETEA	Safe, Accountable, Flexible, Efficient Transportation Equity Act
SamTrans	San Mateo County Transit District
SC, SCL	Santa Clara
SCTA	Sonoma County Transportation Authority
SF	San Francisco
SFCTA	San Francisco County Transportation Authority
SM	San Mateo
SR	State Route
SRTS, SR2S	Safe Routes to Schools
STA	Solano Transportation Authority
STIP	State Transportation Improvement Program
STP	Surface Transportation Program
TAM	Transportation Authority of Marin
TBJPB	Transbay Joint Powers Board
TE	Transportation Enhancements
TEA	Transportation Enhancement Activities
TETAP	Traffic Engineering Technical Assistance Program
TIP	Transportation Improvement Program
TMC	Traffic Management Center
TMP	Traffic Management Plan
TOS	Traffic Operations System
UC, U/C	Undercrossing
VTA	Santa Clara Valley Transportation Authority
W/B	Westbound
W/O	West of
Westcat	Western Contra Costa Transit Authority
ZEB	Zero-Emissions Bus

Further Information
